

giroflex 16

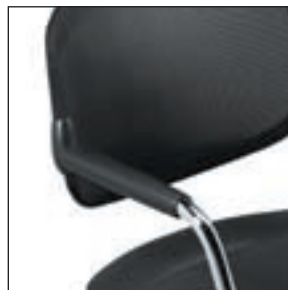

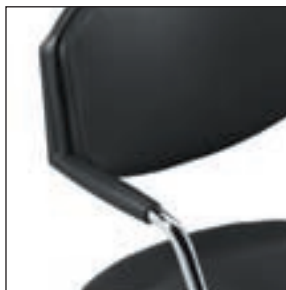

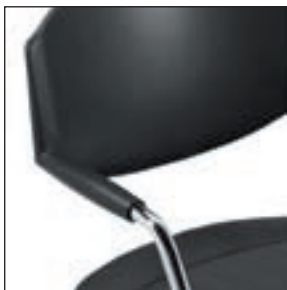

giroflex 16

“The lightness of being” in the office, in the conference room or the waiting area: the impressive simplicity of elegance and versatility.

The giroflex 16 is both a cornerstone and enhancement of your individual room concept. It integrates well into any environment, radiating lightness and elegance with its calm, classic lines. Designed by the Dózsa-Farkas Design Team, the giroflex 16 is uncompromising in its workmanship.

Space saving and adaptable. The giroflex 16 lets you choose between a synthetic backrest shell, an upholstered backrest shell and a stable mesh backrest. In addition, there is a wide selection of covering materials and colours. The back and armrests are black or grey (mesh back only in black) and the tubular steel is available in a choice of colours or chromium-plated. The giroflex 16 can be had as a stacking chair or with castors. Up to six chairs can be stacked easily to save space.
