

Sidiz T50

Braille markers
Visually impaired users can locate and operate the various control levers with ease.

Height adjustable arms
The armrest, made of top-grade molded urethane, can be adjusted for height and distance to the seat front.

Adjustable tilt tension
A multitask lever is located on the side of the support under the seat pan. It can be pulled outward and then rotated to adjust the degree of tilt tension. The same lever is used to adjust seat height, resulting in greater convenience and a sleeker design.

Adjustable arm depth
The chair conforms to individual body types and postures, easing and promoting comfort in the neck, shoulders and arms.

Lumbar support
For additional pressure, an optional lumbar support may be specified, however the standard back will adequately support the majority of users.

Seat slope adjustment
The paddle on the side under the seat pan will easily adjust the seat angle. Tasks such as keyboarding encourage the upper body to lean forward. In this case, elevate the rear of the seat pan to tilt the seat forward to achieve a more comfortable pelvic angle and relieve pressure on the femoral region.

Synchronized tilting
The seat pan and backrest tilt independently in response to natural body movements. The T50 tilt adjustment levers are neat and efficient, furthering the simplicity of overall styling.

Seat slide adjustment
Unlock the seat position by extending the paddle on the side of the under-seat brace. Then grasp the seat pan, sliding it forward or backward effortlessly to achieve the proper seat depth for each user. This feature assists the user in maintaining a correct comfortable seated posture, especially useful for taller people.

Backrest curvature
The backrest supports the spine naturally, enabling the user to maintain the correct and most comfortable ergonomic posture. This helps to prevent the musculoskeletal problems that can occur from prolonged sitting in static postures.

T50 has earned the following ISO certifications:
ISO 14001:2004 and ISO 9001:2000 certifications
Plus the Kolas Accreditation ISO/IEC 17025 : 1999.
A copy of all the accreditations are available on request.

Sidiz T50

Sidiz T50

The T50 task chair offers consistently high comfort levels, regardless of the user's weight and height, their posture or chair settings. T50 features the latest generation of mesh, to offer enhanced support and contemporary aesthetics. T50 not only provides complete comfort along with permeability and elasticity, but also delivers refined beauty and usability in its slim design.
